

## **Local Area Walking Excursions 2023**

From time-to-time students are required to walk to activities in the local area that enhance and enrich learning across the curriculum.

This may include walking to local parks and sporting venues, walking to the local shopping centre or walking around the neighbourhood. Local area walking excursions are always under close teacher supervision.

Teachers will inform parents when these walking excursions occur. To assist with organisation, please complete the attached permission note and return to school.

If you have any questions, please contact the school on 9667 3659.
